

PREPAID MAINTENANCE

Total Care AutoSM
Powered by Landcar

Buying in bulk is nothing new. That's the logic behind a Total Care Auto Prepaid Maintenance Plan; pay for necessary maintenance upfront and save money.

Regularly maintained vehicles are safer, more reliable, and can make the difference between you being the person stranded on the side of the road and the person that stops to help them.

With Total Care Auto Prepaid Maintenance, you'll be able to pick the plan that fits your needs, whether you are on the road all the time or just have to run errands once in a while. And if you sell your car, you can cancel your remaining plan, or better yet, transfer it to the new owner because a car that comes with prepaid maintenance can sell faster and for more money.

When it comes to the maintenance of your vehicle, a dollar of prevention is truly worth one hundred dollars of cure.

When it comes to the maintenance of your vehicle, a dollar of prevention is truly worth a hundred dollars of cure. That's the value of Total Care Auto Prepaid Maintenance.

THREE PLAN OPTIONS

We offer three plans to fit each individual customer, their vehicle and their driving habits. That way, you can decide which plan is best for your needs. Each plan comes with a standard or premium option. The difference being the use of conventional motor oil in the standard option and premium or synthetic motor oil in the premium option.

A

Every 3 months
or 3,000 miles

B

Every 4 months
or 5,000 miles

C

Every 4 months
or 5,000 miles
(Manufacturer
Wrap)

PLANS AVAILABLE
WITH STANDARD
OR PREMIUM OILS

OIL CHANGES

Ensure the engine, your vehicle's most expensive component, lasts longer, gets optimal gas mileage and runs smoothly. Total Care Auto Prepaid Maintenance covers up to six quarts of high quality engine oil with the ability to upgrade to synthetic or blended oils.

LUBRICATION OF MAJOR COMPONENTS

Well-lubricated suspension systems, steering linkages, and ball joints will work better, last longer and are safer. Total Care Auto Prepaid Maintenance makes sure all those components are properly lubricated and in good working order.

FLUIDS

Crucial components such as brakes, power steering, the transmission and the cooling system require the correct amount of fluids to function properly. Not only will we make sure all your fluids are at the proper levels, we will even top them off if necessary.

WIPER BLADE INSPECTION

Your car's wiper blades just sit there, mostly unnoticed. We'll ensure when you do need them, all the components of your wipers work, from the motor, to the washer fluid pump, to the blades themselves.

TIRE ROTATION

Properly inflated and rotated tires mean more miles per gallon and less wear and tear on your tires. We'll make sure you'll never forget a tire rotation again and look for irregular wear that might indicate a potential mechanical or safety problem.

MULTI-POINT VEHICLE INSPECTION

Every visit a certified technician will go over your vehicle in detail to ensure there aren't any surprises, so you can handle it before it becomes a bigger problem and potential safety hazard.
